Quick facilitation notes & answer key

What this worksheet teaches

Children learn the word part contraction and build new words from base words, then read them in decodable sentences.

How to lead it (about 15 minutes)

1. Explain the word part / pattern: n't.
2. Model the first one together: can + not = can't.
3. Children build the rest, then read each sentence.
4. Children read the page three times and colour a face each time.

Answer key

Build: cannot, not, can.

The apostrophe stands for the missing letters: can not -> can't.

Sentences: I can't see the cat. Don't drop the cup. It's a big dog.

B2.3 — use developing knowledge of the meanings of words and morphemes (i.e., bases, prefixes, and suffixes) to read and spell words.

In plain terms: children read and spell the everyday letter-sounds (and word parts) quickly.

If children get stuck — and ways to adjust

Watch for: sounding out contraction part by part. Cover the rest of the word and say the target first.

Make it easier: do fewer items together first; you read, the child echoes.

Make it harder: ask the child to think of or write one more word with the target.

You'll know it worked when: the child reads the page smoothly and spots the target on sight.
