

Grade 1 Ontario Curriculum Data

Will It? Maybe!

Unit Overview: Will It? Maybe!

Grade: Grade 1 | **Strand:** Data

Target Expectations: D2.1, D2.2

Learning Goal: Children will use the terms IMPOSSIBLE, POSSIBLE, CERTAIN to describe likelihood, make predictions, and test those predictions in another group.

Lesson	Lesson Title	Learning Goal
Day 1	Impossible, Possible, Certain	I can name events as impossible, possible, or certain.
Day 2	Sort by Likelihood	I can sort events into three likelihood groups.
Day 3	Make a Prediction	I can use likelihood to predict.
Day 4	Test Your Prediction	I can test a prediction in a new group.
Day 5	Likelihood Lab Capstone	I can predict, test, and tell if my prediction was right.

Lesson 1: Impossible, Possible, Certain

Goal: Some events CAN'T happen (impossible). Some MIGHT (possible). Some MUST (certain).

Expectation: D2.1

Learning Goal: "I can name events as impossible, possible, or certain."

Materials: M1_event_cards, M7_likelihood_chart, M10_likelihood_poster

1. Minds On (12 mins): Lucky's Silly Predictions

Lucky: WILL the sun fly to the moon today? IMPOSSIBLE! WILL it rain at recess? POSSIBLE! WILL the day end? CERTAIN!

Bring children to the carpet. Lucky and Mae puppets. 'Friends — I'm Lucky Lou the Loon, and this is Maybe Mae the Cat. Today we learn 3 BIG words about LIKELIHOOD: IMPOSSIBLE, POSSIBLE, CERTAIN.'

2. Action (25 mins): Likelihood Stations

- Whole group: name 6 events as I/P/C.
- Three stations.
- Stretch challenge at Station C: write your own EVENT CARD and decide its likelihood.
- Discuss the 3 categories.
- Circulate to record diagnostic evidence on the likelihood tracker.

3. Consolidation (13 mins): Lucky's Likelihood Brag

Discuss:

- What does IMPOSSIBLE mean?
- What does POSSIBLE mean?
- What does CERTAIN mean?
- Give an example of each.

Exit: Each child names ONE example of each: 'Impossible: ____.

Lesson 2: Sort by Likelihood

Goal: We can SORT everyday events into THREE likelihood buckets: impossible, possible, certain.

Expectation: D2.1

Learning Goal: "I can sort events into three likelihood groups."

Materials: M1_event_cards, M2_likelihood_mat, M7_likelihood_chart, M10_likelihood_poster

1. Minds On (12 mins): Mae Sorts the Event Pile

Mae: I have a PILE of events. Help me put each one in the right bucket: IMPOSSIBLE, POSSIBLE, or CERTAIN! Mae opens: 'Will it? Maybe!' Class: 'Impossible — Possible — Certain!'

Bring children to the carpet. Lucky and Mae puppets. 'Friends — yesterday we learned the 3 likelihood words. Today we SORT a big pile of events.'

2. Action (25 mins): Sort Stations

- Whole group: sort 6 events on a giant 3-zone mat as a class.
- Three stations.
- Stretch challenge at Station B: justify each placement with WHY ('possible because it sometimes happens at recess').
- Discuss tricky 'possible' events.
- Circulate to record formative evidence on the sort tracker.
- STRATEGY COMPARE: 2 pairs share their sorted bins.

3. Consolidation (13 mins): Mae's Sort Brag

Discuss:

- How do you decide IMPOSSIBLE?
- How do you decide CERTAIN?
- When is something POSSIBLE?
- Are there events that change buckets in different seasons?

Exit: Mae's call-and-response refrain — Mae calls 'Will it? Maybe!' and class chants back 'Impossible — Possible — Certain!' Repeat 3x.

Lesson 3: Make a Prediction

Goal: We can use likelihood to PREDICT what will happen. The MORE LIKELY thing is the BEST PREDICTION.

Expectation: D2.1, D2.2

Learning Goal: "I can use likelihood to predict."

Materials: M3_coin_set, M4_dice_set, M5_prediction_mat, M8_predict_chart

1. Minds On (12 mins): Lucky Predicts the Coin

Lucky: I will FLIP this coin. PREDICT — heads or tails? Now let's see if you were right! Lucky opens: 'I predict and I PROVE!' Class: 'Maybe yes, maybe no — let's TEST and we'll know!'

Bring children to the carpet. Lucky and Mae puppets. 'Friends — yesterday we sorted events. Today we PREDICT — say what will happen BEFORE it happens.'

2. Action (25 mins): Prediction Stations

- Whole group: predict 4 events.
- Three stations.
- Stretch challenge at Station C: predict 3 events with different likelihoods (one impossible, one possible, one certain).
- Discuss prediction accuracy.
- Circulate to record formative evidence on the prediction tracker.
- STRATEGY COMPARE: After Station B (4R+1B bag), bring two children's strategies to the carpet — one who predicted RED every pull, one who alternated.

3. Consolidation (13 mins): Lucky's Predict Brag

Discuss:

- What does PREDICT mean?
- What word do you use when something is likely?
- Were any predictions wrong?
- What helps you make a good prediction?

Exit: Mae and Lucky chant together — Lucky calls 'I predict and I PROVE!' and class echoes 'Maybe yes, maybe no — let's TEST and we'll know!' Each child writes ONE prediction on a sticky and tags it MORE...

Lesson 4: Test Your Prediction

Goal: We can TEST a prediction in a new group. The same prediction may give DIFFERENT results.

Expectation: D2.2

Learning Goal: "I can test a prediction in a new group."

Materials: M3_coin_set, M5_prediction_mat, M8_predict_chart, M9_outcome_cards

1. Minds On (12 mins): Mae Tests in Another Class

Mae: I predicted MOST kids in our class like dogs. Now I'll TEST in Ms. B's class — same numbers? Or different? Mae opens: 'Different group? Different data — that is OK!' (Class echoes.)

Bring children to the carpet. Lucky and Mae puppets. 'Friends — yesterday we PREDICTED. Today we TEST predictions in a NEW group to see if results are the SAME.'

2. Action (25 mins): Predict-and-Test Stations

- Whole group: predict 'most kids in our class like ___' for 4 categories.
- Three stations.
- Stretch challenge at Station B: predict for 2 groups (family + friend) and compare ALL.
- Discuss outcome variability.
- Circulate to record formative evidence on the test tracker.
- STRATEGY COMPARE: Two pairs share their mismatched test results (7R/3B vs 8R/2B).

3. Consolidation (13 mins): Mae's Test Brag

Discuss:

- What does TEST mean?
- Were any predictions WRONG in another group?
- Why might different groups have different results?
- What does this tell us about predictions?

Exit: Mae's variability refrain — class chants 3x: 'Different group?'

Lesson 5: Likelihood Lab Capstone

Goal: Detectives use LIKELIHOOD to predict and TEST. The data tells us if our prediction was right.

Expectation: D2.1, D2.2

Learning Goal: "I can predict, test, and tell if my prediction was right."

Materials: M1_event_cards, M2_likelihood_mat, M3_coin_set, M4_dice_set

1. Minds On (12 mins): Welcome to the Likelihood Lab

Lucky: Welcome to LUCKY'S LIKELIHOOD LAB! Five stations. Each one — predict, test, report.

Bring children to the carpet. Lucky and Mae puppets in lab coats. 'Friends — today is our CAPSTONE. We use ALL we know about likelihood: IMPOSSIBLE, POSSIBLE, CERTAIN, PREDICT, TEST.'

2. Action (25 mins): The Likelihood Lab

- Hand out Lab templates.
- Station 1 (COIN): predict + test 5 flips.
- Station 2 (DICE): predict + test 5 rolls.
- Stations 3-5 follow the same pattern: predict + test + record.
- Circulate to record summative evidence on the capstone rubric.

3. Consolidation (13 mins): Lucky's Lab Brag

Discuss:

- Which station was your favourite?
- Were any predictions wrong?
- What likelihood words did you use?
- What's the difference between PREDICT and TEST?

Exit: Each child shows their template and finishes: 'My favourite likelihood lab was ____ because ____.'

Name: _____

Date: _____

Lucky's Likelihood Hunt

Learning Goal: I can name events as impossible, possible, or certain.

Instructions for the Student:

1. Read each event.
2. Look at 6 events.
3. Write ONE event for each likelihood.

Events on the Scale

List 4 events. Place each on the scale.

Name: _____

Date: _____

Mae's Sort Worksheet

Learning Goal: I can sort events into three likelihood groups.

Instructions for the Student:

1. Read 6 events.
2. Sort the 9 events into the 3-column table.
3. Make a TRICKY event for each likelihood.

Tricky Cases

Why are these tricky?

Name: _____

Date: _____

Lucky's Prediction Lab

Learning Goal: I can use likelihood to predict.

Instructions for the Student:

1. Predict 4 coin flips.
2. Look at the bag: 4 RED marbles + 1 BLUE.
3. Make 2 predictions about today: one POSSIBLE, one CERTAIN.

Marble Bag Predictions

Use the marble bag. Predict each pick.

Name: _____

Date: _____

Mae's Test Sheet

Learning Goal: I can test a prediction in a new group.

Instructions for the Student:

1. Look at our class data.
2. Predict pet preferences at HOME and at SCHOOL.
3. Write WHY predictions can be different in different groups.

Box and Arrow

Use the box-and-arrow.

Name: _____

Date: _____

Lucky's Likelihood Lab

Learning Goal: I can predict, test, and tell if my prediction was right.

Instructions for the Student:

1. Predict 5 coin flips.
2. Bag has 4 RED + 1 BLUE marble.
3. Sort 6 events as IMPOSSIBLE, POSSIBLE, or CERTAIN.

Coin Capstone

Capstone: coin probabilities.

Event Cards

(M1_event_cards)

A set of 24 event cards (silly + everyday) for sorting by likelihood.

Event Cards

The sun rises tomorrow.	It will snow today.
I will pick a red marble.	I will roll a 7.
Coin lands on heads.	Tomorrow is Wednesday.
The ice will melt in the sun.	Dog will bark at noon.

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 2

Laminate: yes

USE IN CLASS

Quantity: 10 sets

Lessons: 1, 2, 5

Prep: ~25 min

TEACHER PREP

1. Print 10 sets total (1 set per pair).

2. Laminate before cutting for repeated use.

3. Cut along the grid lines into 24 individual cards per set.

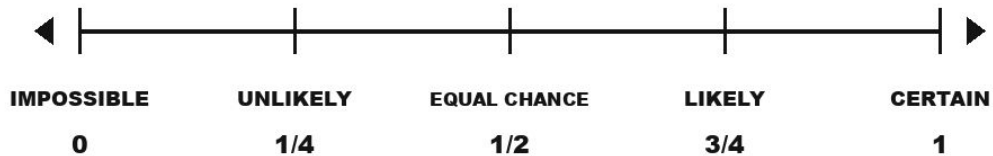

4. Store each set in a labelled zip-top bag.

Likelihood Sort Mat

(M2_likelihood_mat)

A letter-size mat with 3 zones (IMPOSSIBLE, POSSIBLE, CERTAIN)
for placing event cards.

Likelihood Scale

PRINT SPECS

Size: letter landscape
Colour: bw
Pages per set: 1
Laminate: yes

TEACHER PREP

1. Print 12 mats (1 per pair plus 2 extras).
2. Laminate for dry-erase use.
3. Distribute one mat per pair.

USE IN CLASS

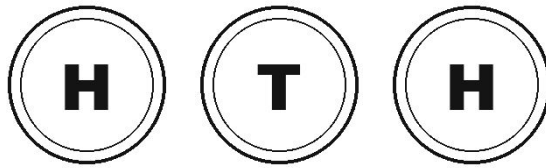

Quantity: 10-12 mats
Lessons: 2, 5
Prep: ~15 min

Paper Coin Set

(M3_coin_set)

A set of 12 paper coins with H/T sides for predicting heads/tails.

3 Coins

H = Heads T = Tails

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: yes

USE IN CLASS

Quantity: 10 sets

Lessons: 3, 4, 5

Prep: ~35 min

TEACHER PREP

1. Print 10 sets (1 per pair).

2. Laminate before cutting.

3. Cut into 12 individual coins per set.

4. Glue or tape pairs of coins back-to-back so each is two-sided (H/T).

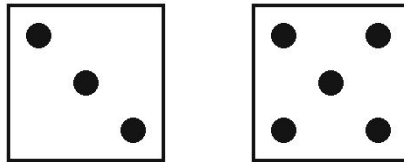

5. Store each set in a labelled zip-top bag.

Paper Dice Set

(M4_dice_set)

A set of 6 paper dice (foldable) for predicting outcomes.

Dice

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 2

Laminate: no

USE IN CLASS

Quantity: 10 sets

Lessons: 3, 5

Prep: ~45 min

TEACHER PREP

1. Print 6 sets (1 per pair plus 2 extras).

2. Cut along solid lines and fold along dashed lines.

3. Tape or glue tabs to assemble each die.

4. Store each pair's dice in a labelled bag.

Prediction Recording Mat

(M5_prediction_mat)

A letter-size mat for predicting and recording results in a 2-column table.

Outcome Table

Trial	Outcome	Tally	Probability

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: yes

USE IN CLASS

Quantity: 10-12 mats

Lessons: 3, 4, 5

Prep: ~10 min

TEACHER PREP

1. Print 12 mats (1 per pair plus 2 extras).
2. Laminate for dry-erase use across lessons.
3. Distribute one mat per pair.

Likelihood Lab Template

(M6_capstone_template)

A letter-size capstone template with 5 station response areas for the Lesson 5 Likelihood Lab.

Likelihood Lab Template	
1	Coin _____
2	Dice _____
3	Marbles _____
4	Weather _____

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: no

USE IN CLASS

Quantity: 25 templates

Lessons: 5

Prep: ~5 min

TEACHER PREP

1. Print 25 templates (1 per child plus 5 extras).

2. Stack near the teacher table for distribution.

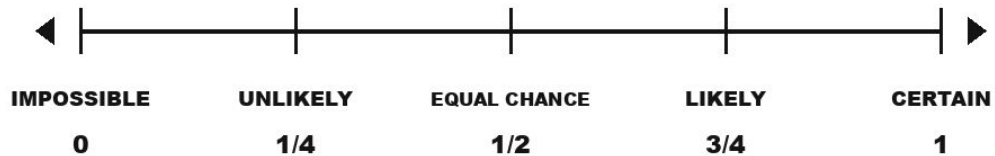

3. No lamination needed — single-use summative artifacts.

Likelihood Anchor Chart

(M7_likelihood_chart)

A teacher-display anchor chart with the 3 likelihood terms and example events.

Likelihood Scale

PRINT SPECS

Size: letter landscape
Colour: bw
Pages per set: 1
Laminate: yes

TEACHER PREP

1. Print 1 copy on letter or scaled to 11x17.
2. Laminate for repeated reference.
3. Tape to the front classroom wall before Lesson 1.

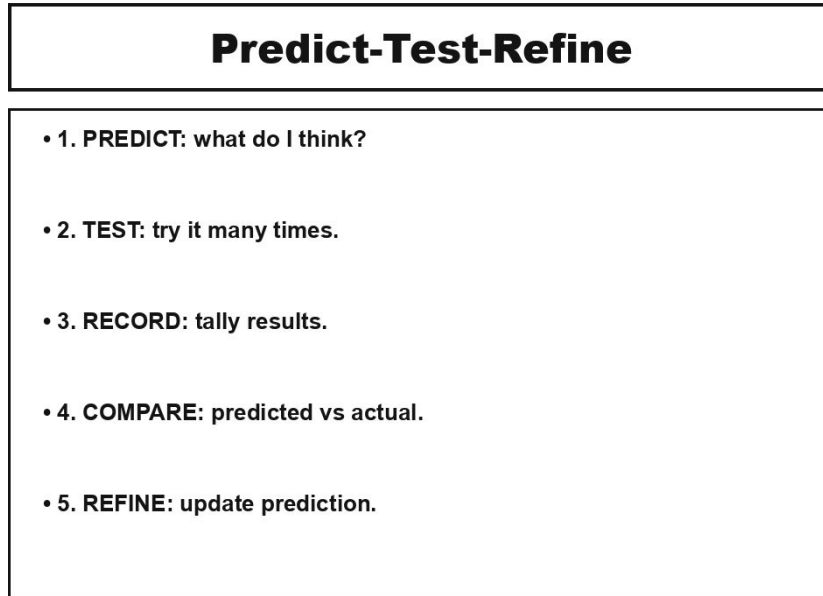

USE IN CLASS

Quantity: 1 chart
Lessons: 1, 2, 3, 4, 5
Prep: ~10 min

Predict and Test Chart

(M8_predict_chart)

A teacher-display anchor chart of the 4-step cycle: predict, test, record, compare.

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: yes

TEACHER PREP

1. Print 1 copy.

2. Laminate for repeated reference.

3. Tape next to the Likelihood
Anchor Chart before Lesson 3.

USE IN CLASS

Quantity: 1 chart

Lessons: 3, 4, 5

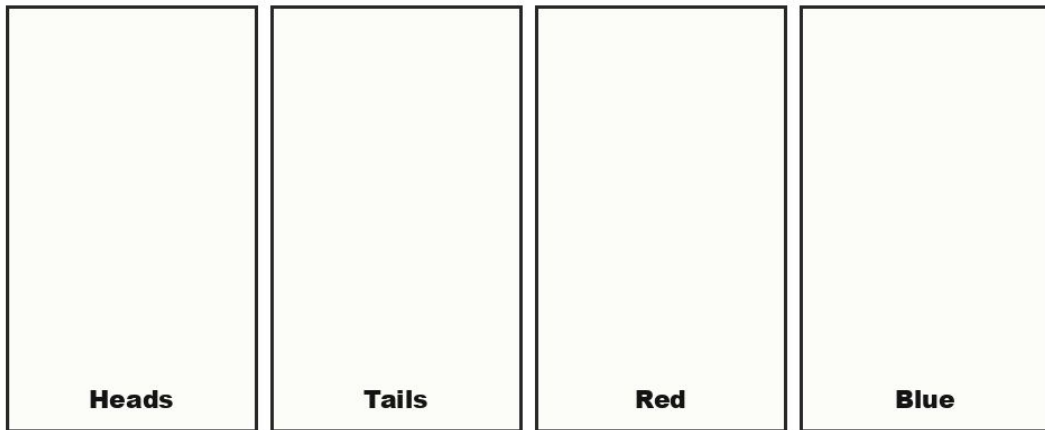

Prep: ~10 min

Outcome Cards

(M9_outcome_cards)

A set of 16 event-outcome cards (heads/tails, sun/rain, etc.) for prediction.

Outcome Cards

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: yes

USE IN CLASS

Quantity: 10 sets

Lessons: 3, 4, 5

Prep: ~15 min

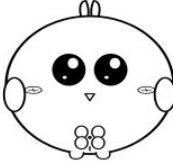

TEACHER PREP

1. Print 10 sets (1 per pair).
2. Laminate before cutting.
3. Cut into 16 individual outcome cards per set.
4. Store each set in a labelled zip-top bag.

Will It? Maybe! Poster

(M10_likelihood_poster)

A unit anchor poster of Lucky and Mae with the 3 likelihood zones.

Will It? Maybe! Poster		
 Lucky Lou the Loon	 Maybe Mae the Cat	Tiny Example
Around them	Possible	Certain

PRINT SPECS

Size: letter landscape

Colour: bw

Pages per set: 1

Laminate: yes

TEACHER PREP

1. Print 1 copy on letter or 11x17.
2. Laminate for the full unit duration.
3. Tape to the front classroom wall on Day 1.

USE IN CLASS

Quantity: 1 poster

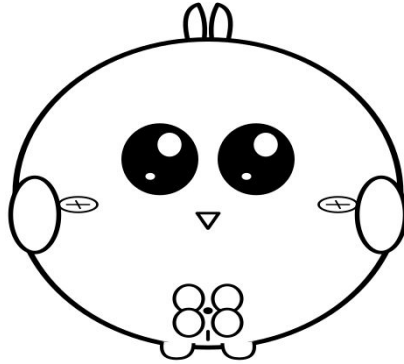

Lessons: 1, 2, 3, 4, 5

Prep: ~10 min

Lucky Puppet

(char_lucky_puppet)

A paper puppet of Lucky Lou the Loon used by the teacher in the Minds-On phase of every lesson.

Lucky Lou the Loon

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: yes

USE IN CLASS

Quantity: 1 puppet

Lessons: 1, 2, 3, 4, 5

Prep: ~12 min

TEACHER PREP

1. Print 1 copy of Lucky on cardstock if possible.

2. Cut around the outside of Lucky's silhouette including the tab.

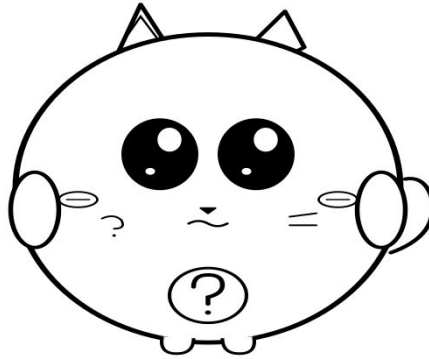

3. Laminate before assembly.

4. Glue or tape a popsicle stick behind the bottom tab.

Maybe Mae Puppet

(char_maybe_puppet)

A paper puppet of Maybe Mae the Cat used by the teacher in Lessons 2-5 to embody uncertainty and test predictions.

Maybe Mae the Cat

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: yes

USE IN CLASS

Quantity: 1 puppet

Lessons: 2, 3, 4, 5

Prep: ~12 min

TEACHER PREP

1. Print 1 copy of Mae on cardstock if possible.

2. Cut around the outside of Mae's silhouette including the tab.

3. Laminate before assembly.

4. Glue or tape a popsicle stick behind the bottom tab.

Name: _____

Date: _____

Summative Assessment Rubric

Expectation	Level 1 (Beginning)	Level 2 (Developing)	Level 3 (Achieving)	Level 4 (Exceeding)
D2.1 use mathematical language, including the terms “impossible”, “possible”, and “certain”, to describe the likelihood of events happening, and use that likelihood to make predictions and informed decisions	Cannot consistently distinguish the 3 likelihood terms. Defaults to 'possible' or 'maybe' for everything.	Names IMPOSSIBLE and CERTAIN with prompts. Uses POSSIBLE for genuinely uncertain events.	Independently uses all 3 likelihood terms appropriately. Makes predictions using likelihood reasoning.	Justifies likelihood assignments with real-world reasoning. Predicts the MORE LIKELY outcome and explains why.
D2.2 make and test predictions about the likelihood that the categories in a data set from one population will have the same frequencies in data collected from a different population of the same size	Predicts but does not yet TEST in another group. Insists original prediction is right despite different test results.	Tests in a second group with adult prompts. Sometimes accepts that results differ.	Independently makes a prediction, tests it in a different group, and accepts that results may differ across groups.	Predicts for two groups separately and reasons about WHY results may differ ('different families, different favourites').

Junior Likelihood Detective Certificate

This certificate is proudly presented to:

For successfully completing the 5-Day Will It? Maybe! unit and demonstrating the skills of a Junior Likelihood Detective. A likelihood certificate. Lucky Lou the Loon congratulates the student.

By completing this unit, this student has demonstrated:

- Naming events as impossible, possible, or certain
- Sorting events by likelihood
- Making predictions using likelihood
- Testing predictions in a new group

Marketplace Listing

A 5-day Grade 1 unit on likelihood framed around Lucky Lou the Loon and Maybe Mae the Cat.

Price: \$8.99 CAD

Pages: ~42

Classroom time: 250 min

Teacher prep: ~200 min

Top tags: Grade 1, math, data, likelihood, probability, predictions, impossible possible certain, Ontario curriculum

What's included:

- Unit blueprint with curriculum mapping (1 file)
- 5 lesson plans with minds-on, action, consolidation, expanded walkthroughs (5 files)
- 5 student worksheets with answer keys (5 files)
- Manipulatives plan with 12 print-ready assets (1 file)
- Formative + reflection sheets (1 file)
- Assessment suite (1 file: tracker, summative rubric, task script, Junior Likelihood Detective certificate)
