

Grade 1

Ontario Curriculum

Algebra (Patterns and Relationships)

The Pattern Parade — Pattern Rules and Number Patterns to 50

Unit Overview: The Pattern Parade — Pattern Rules and Number Patterns to 50

Grade: Grade 1 | **Strand:** Algebra (Patterns and Relationships)

Target Expectations: C1.1, C1.2, C1.3, C1.4

Learning Goal: Children will identify, describe, and create repeating patterns; name the rule of a pattern; translate one pattern across objects, sounds, movements, and pictures; justify predictions and find missing elements; and use repeating patterns to describe relationships among whole numbers up to 50.

Lesson	Lesson Title	Learning Goal
Day 1	Welcome to the Parade!	I can describe a repeating pattern and predict what comes next.
Day 2	What's the Rule?	I can find the pattern rule and use it to keep the parade going.
Day 3	Same Rule, Different Parade	I can take one rule and show it as a parade of animals, sounds, and movements.
Day 4	Detective Parade	I can find a missing animal and tell my partner why I am sure.
Day 5	Lead the Number Parade	I can build a repeating number parade up to 50, name its rule, and lead it.

Lesson 1: Welcome to the Parade!

Goal: A repeating pattern is something that repeats in the same order — and we can use it to predict what comes next.

Expectation: C1.1

Learning Goal: "I can describe a repeating pattern and predict what comes next."

Materials: M1_animal_cards, M2_parade_strip, M6_anchor_chart_words

1. Minds On (10 mins): Coco's Clap-Stomp-Jump Warm-Up

Coco the Conductor is back, and this year he has a parade with more animals, more sounds, and a brand-new question for us: how do you KNOW what comes next?

Bring children to the carpet in a circle. Hold up the Coco puppet. Say to students: 'Friends, last year (or in Kindergarten classrooms next door) Coco led parades and we just spotted what came next. This year, Coco wants more from us — he wants us to PREDICT what comes next AND tell him HOW WE KNOW. That is the Grade 1 job.'

2. Action (25 mins): Build the Parade

- Whole group: lay one Parade Strip (M2) flat in front of the carpet.
- Show a second example with three animals: Bea, Finn, Bibi, Bea, Finn, Bibi, ?.
- Send children to partner spots.
- Circulate.

3. Consolidation (10 mins): Parade Share Circle

Discuss:

- Who would like to share a parade you and your partner built?
- What was the part of your parade that kept coming back?
- How did your partner KNOW what came next?
- Did anyone find a pattern somewhere else in our classroom right now?

Exit: As children leave the carpet, each child names one place they will look for a pattern at home tonight AND says how they would predict the next part.

Lesson 2: What's the Rule?

Goal: Every repeating pattern has a rule — once you know the rule (AB, ABB, AAB, ABC), you can keep the parade going forever.

Expectation: C1.3

Learning Goal: "I can find the pattern rule and use it to keep the parade going."

Materials: M1_animal_cards, M2_parade_strip, M5_core_loop, M6_anchor_chart_words

1. Minds On (10 mins): Coco's Mystery Rules

Coco brought four parades today, and each one has a SECRET RULE. Our job is to crack the code.

Bring children to the carpet. Lay the four pre-built strips in a row on the floor — AB, ABB, AAB, ABC. Hold up the Coco puppet.

2. Action (25 mins): Lasso the Core, Name the Rule

- Whole group demo: lay a fresh strip with Bea-Finn-Finn-Bea-Finn-Finn-Bea.
- Send children to partner spots.
- After the first build, swap pairs.
- Whole-class extension: bring children back to the carpet.

3. Consolidation (10 mins): Rule Showcase

Discuss:

- Who would like to share the parade you built and the rule you used?
- Did anyone build a parade with a NEW rule we did not name on the chart?
- When you read another pair's parade, how did you figure out the rule?

Exit: On the way out the door, each child tells the teacher one rule they built today AND uses a letter chant to say it ('My rule was A-B-B, A-B-B').

Lesson 3: Same Rule, Different Parade

Goal: The same pattern rule can be shown with different things — animals, sounds, movements, shapes, or letters — and it is still the same rule.

Expectation: C1.2

Learning Goal: "I can take one rule and show it as a parade of animals, sounds, and movements."

Materials: M1_animal_cards, M2_parade_strip, M3_sound_movement_cards, M5_core_loop

1. Minds On (10 mins): Coco's Three Parade Mystery

Coco built three parades that look totally different — but he says they all follow the SAME rule. Are we sure?

Bring children to the carpet. Lay all three pre-built strips in a line on the floor: animal ABB, sound ABB, body ABB.

2. Action (25 mins): Translate the Rule

- Whole group: see the expanded walkthrough below.
- Hand each pair a pre-built animal strip showing one rule (assign by readiness — AB, ABB, AAB, or ABC).
- Circulate.
- Optional extension for early-finishers: swap the rule sticky with another pair.

3. Consolidation (10 mins): Three-Parade Showcase

Discuss:

- Who would like to show their three parades to the class?
- When you watched [pair name]'s three parades, what was the rule?
- Could we make this same rule a FOURTH way?

Exit: Each child whispers to a partner: 'My rule was ____, and I translated it three ways: with ____, ____, and ____.' Then tidy.

Lesson 4: Detective Parade

Goal: We can use the rule to find missing animals anywhere in the parade and to explain — out loud — why our prediction is right.

Expectation: C1.3

Learning Goal: "I can find a missing animal and tell my partner why I am sure."

Materials: M1_animal_cards, M2_parade_strip, M4_missing_card, M5_core_loop

1. Minds On (10 mins): Coco's Broken Parades

Coco needs detectives! Three of his parades have animals MISSING — at the start, the middle, or the end. Can we crack the case?

Bring children to the carpet. Lay the three broken strips in a row, each with a Missing Mystery Card (M4) in the gap.

2. Action (25 mins): Detectives at Work — Fix and Extend

- Whole group demo: take a clean strip and build Bea-Finn-Finn-Bea-Finn-Finn-?-? leaving the last two cells empty.
- Send children to partner spots.
- Stretch challenge: pairs exchange parades with another pair.
- Circulate.

3. Consolidation (10 mins): Detective Share Circle

Discuss:

- Who solved a tricky parade today?
- Was it harder to find the missing animal at the START or at the END?
- If your parade had 100 cells, could you tell me who would be in cell 100?

Exit: On the way out the door, each child says one full justify sentence: 'I am a Pattern Detective because I can use the rule ___ to find a missing ___.'

Teacher nods or quietly redirects.

Lesson 5: Lead the Number Parade

Goal: Pattern rules also work with numbers — we can build repeating number parades up to 50 and explain the rule.

Expectation: C1.4

Learning Goal: "I can build a repeating number parade up to 50, name its rule, and lead it."

Materials: M1_animal_cards, M2_parade_strip, M3_sound_movement_cards, M4_missing_card

1. Minds On (10 mins): From Animals to Numbers

Coco wants to know — can pattern rules work with NUMBERS too? Today we will find out, and then YOU lead the parade.

Bring children to the carpet. Hold up Coco. Beside him, lay the animal AAB strip and, parallel below it, the number AAB strip (2-2-5).

2. Action (38 mins): Plan, Build, Translate, Lead

- Phase 1 — PLAN (5 min).
- Phase 2 — BUILD an animal parade (8 min).
- Phase 3 — TRANSLATE to a number parade (8 min).
- Phase 4 — LEAD (7 min).
- Phase 5 — REVISE & REFLECT (8 min).

3. Consolidation (10 mins): Junior Pattern Conductor Ceremony

Discuss:

- Who would like to lead the WHOLE class through their parade? (Take 2-3 children.
- What was the trickiest part of making a NUMBER parade compared to an animal parade?
- What was your favourite parade you built this week — across all 5 days — and what was its rule?

Exit: Each child receives a Junior Pattern Conductor certificate (the teacher reads it briefly at the front and hands it over with a high five).

Name: _____

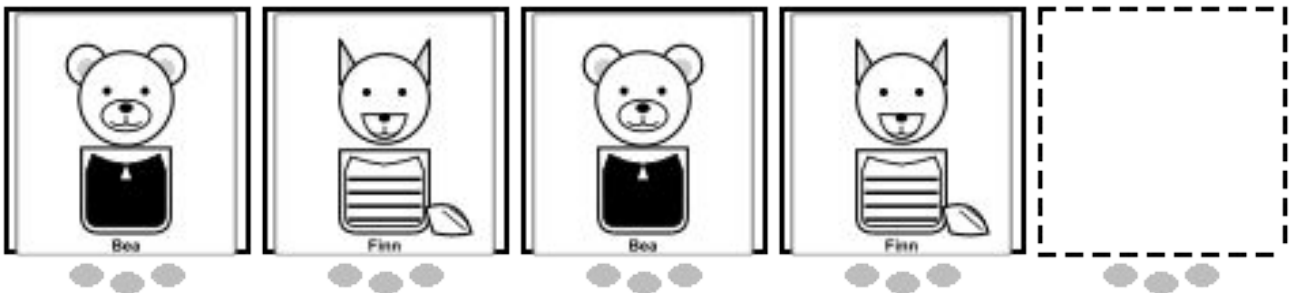

Date: _____

Coco's First Grade 1 Parade

Learning Goal: I can describe a repeating pattern and predict what comes next.

Instructions for the Student:

1. Bea and Finn are leading the parade.
2. Look at this longer parade.
3. Now you are the parade builder! Pick two OR three animals.

Name: _____

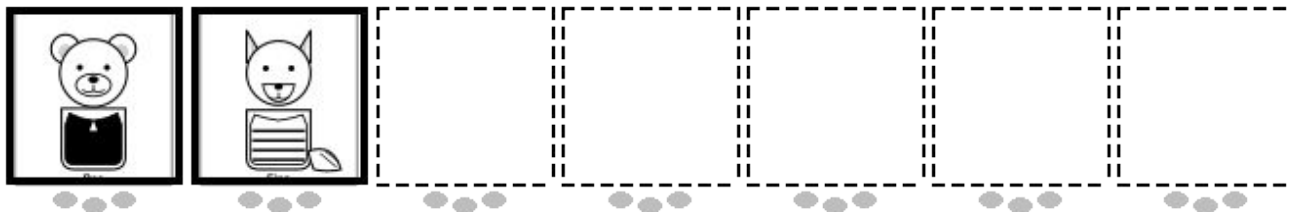

Date: _____

Crack Coco's Code

Learning Goal: I can find the pattern rule and use it to keep the parade going.

Instructions for the Student:

1. Look at each parade.
2. Look at this parade.
3. Pick a rule from the box.

Name: _____

Date: _____

Same Rule, Three Ways

Learning Goal: I can take one rule and show it as a parade of animals, sounds, and movements.

Instructions for the Student:

1. The animal parade at the top has the rule ABB.
2. Look at all three parades.
3. Pick a rule from the box.

WS03_P1_TOP

Name: _____

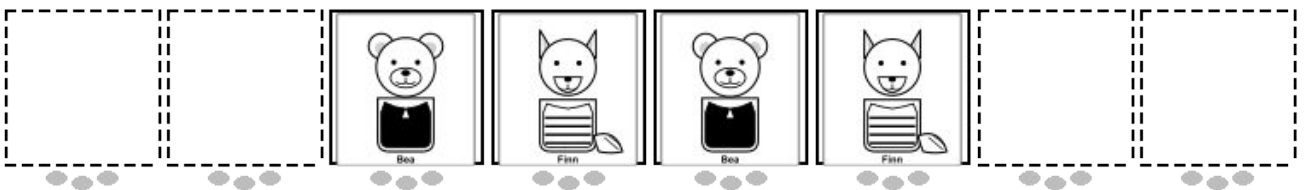

Date: _____

Pattern Detective

Learning Goal: I can find a missing animal and tell my partner why I am sure.

Instructions for the Student:

1. Each of these parades is missing one animal.
2. Look at the middle of this parade.
3. Coco built a parade.

Name: _____

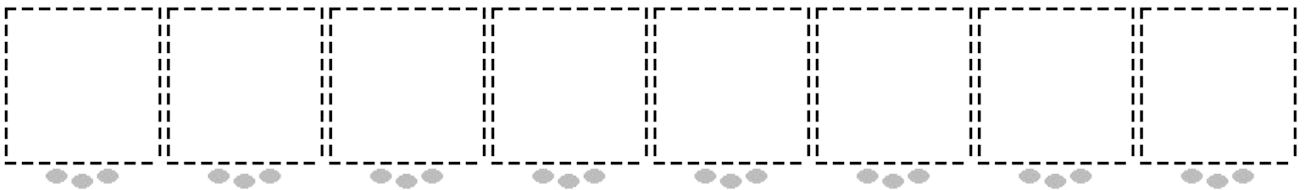

Date: _____

Lead the Number Parade

Learning Goal: I can build a repeating number parade up to 50, name its rule, and lead it.

Instructions for the Student:

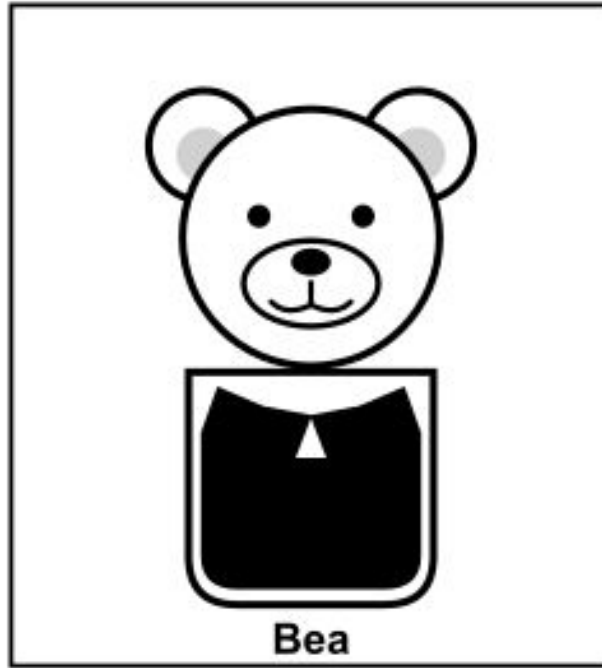

1. You are the Conductor today.
2. Use your rule to fill all 8 cells of the parade strip.
3. Now turn your animal parade into a NUMBER parade.

Parade Animal Cards

(M1_animal_cards)

Reusable physical cards used by pairs to build, manipulate, read, translate, and fix parade patterns.

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 2

Laminate: yes

USE IN CLASS

Quantity: 1 set (16 cards) per pair

Lessons: 1, 2, 3, 4, 5

Prep: ~20 min

TEACHER PREP

1. Print both pages (one set per pair — for a class of 20 print 10 sets = 20 pages).

2. Optional but strongly recommended: laminate before cutting, so the cards survive Grade 1 hands across...

3. Cut along the thin solid lines into 16 individual 3in × 3in cards per set.

4. Store each set in a labelled zip-top bag or envelope ('Parade Animal Cards — Pair 1', etc.).

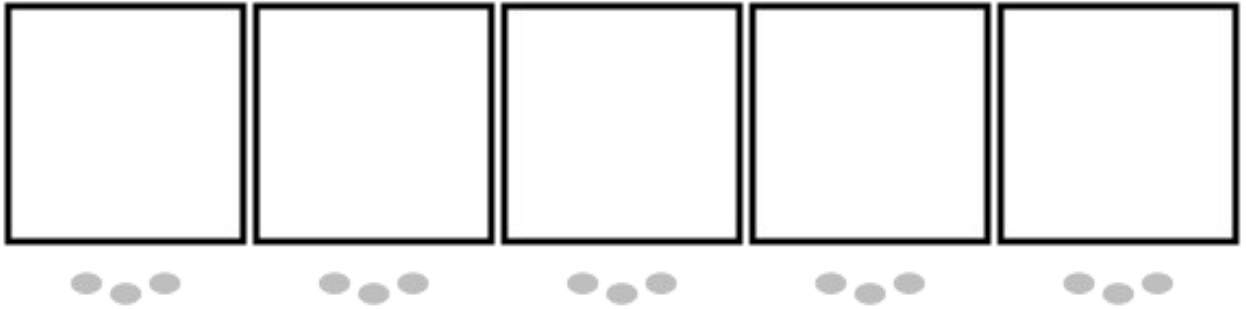

5. Optional Grade 1 prep: cut a small sheet of round letter stickers (A, B, C) and keep them with the teacher's...

...

Blank Parade Strip

(M2_parade_strip)

A printable strip with 5 cells that pairs use to lay out animal cards, build patterns, and visualize the parade route.

PRINT SPECS

Size: letter landscape

Colour: bw

Pages per set: 1

Laminate: yes

USE IN CLASS

Quantity: 1 strip per pair plus 2 spare for the teacher's whole-g

Lessons: 1, 2, 3, 4, 5

Prep: ~15 min

TEACHER PREP

1. Print enough pages to yield ~12 strips (one per pair plus 2 spare = 6 pages, since each page produces 2...

2. Laminate the pages — this is essential for Grade 1 because Lesson 5 requires writing numbers on the strips...

3. Cut along the horizontal cut line between the two strips on each page.

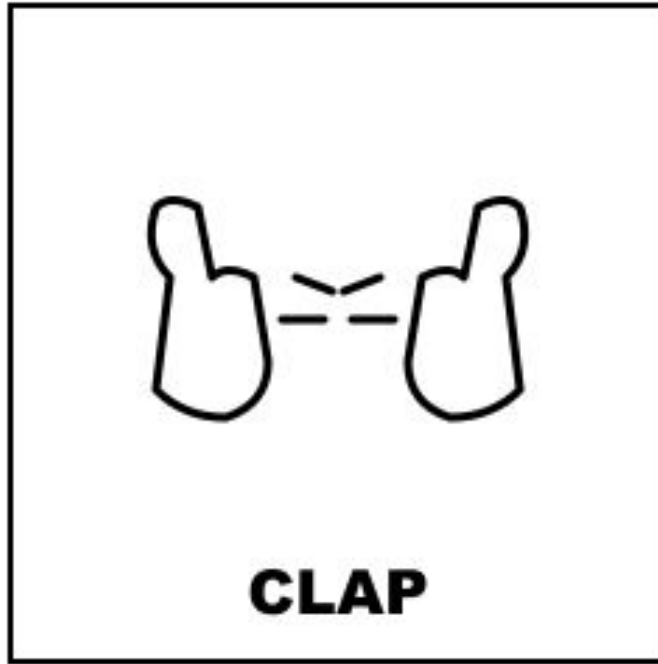

4. Distribute one strip per pair; keep 2 extras at the teacher table for whole-group demonstrations.

5. Bring a class set of dry-erase markers and a small cloth for erasing — needed for the Lesson 5 number parade.

Sound and Movement Cards

(M3_sound_movement_cards)

An 8-card set used by the class and by pairs to translate visual rules into auditory and kinesthetic rules.

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: yes

USE IN CLASS

Quantity: 1 teacher set + 5 partner sets (8 cards each)

Lessons: 3, 5

Prep: ~20 min

TEACHER PREP

1. Print 6 pages total: 1 for the teacher's whole-group set + 5 for partner sets in Lesson 3 (Grade 1 pairs use...

2. Laminate the pages for durability.

3. Cut along the cut-lines into 8 individual cards per set.

4. Store each set in a labelled envelope.

5. Optional colour suggestion: B&W works well; print in colour only if you specifically want extra visual...

Missing Mystery Card

(M4_missing_card)

A small card showing a question mark inside a dotted outline.

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: yes

USE IN CLASS

Quantity: 5 cards per pair

Lessons: 4, 5

Prep: ~15 min

TEACHER PREP

1. Print 5 pages (60 cards = 5 cards per pair × 10 pairs + spares).

2. Laminate before cutting.

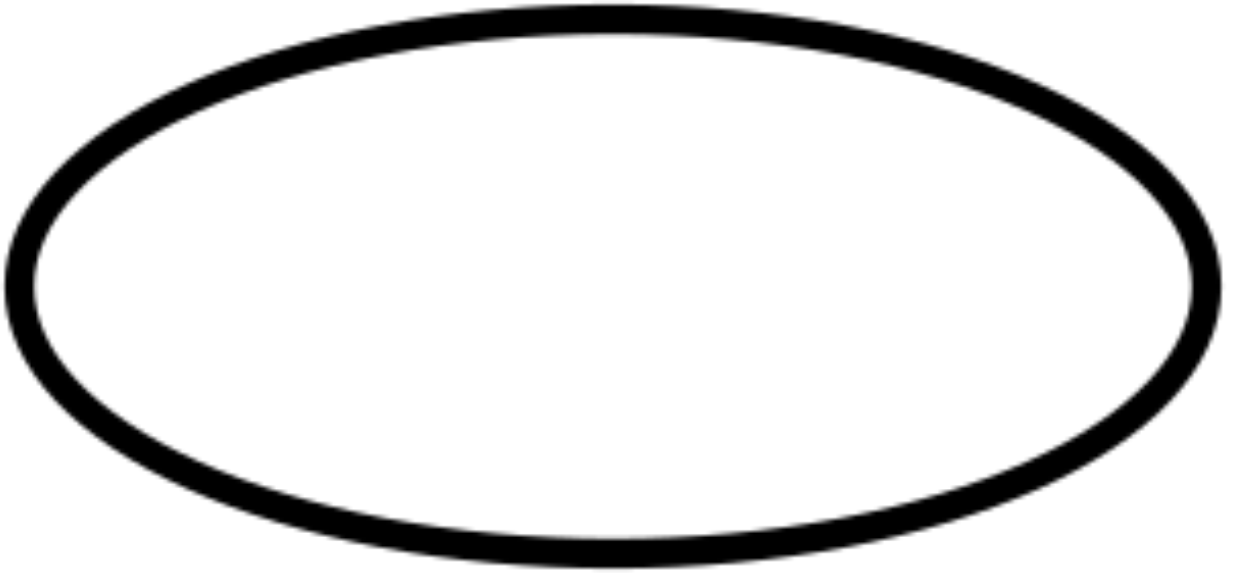

3. Cut along the cut-lines into individual 2in × 2in cards.

4. Distribute 5 cards per pair before Lesson 4.

Core Loop Frame

(M5_core_loop)

A reusable physical frame that students place over the repeating part of a parade strip to mark and isolate the core.

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: yes

USE IN CLASS

Quantity: 1 frame per pair plus 2 spares

Lessons: 2, 3, 4, 5

Prep: ~15 min

TEACHER PREP

1. Print on cardstock if available — durability matters because pairs handle these repeatedly.

2. Alternative: print on regular paper and laminate.

3. Cut around the outside of each oval to produce 4 frames per page (3 pages = 12 frames for a class of 20 = ~1...

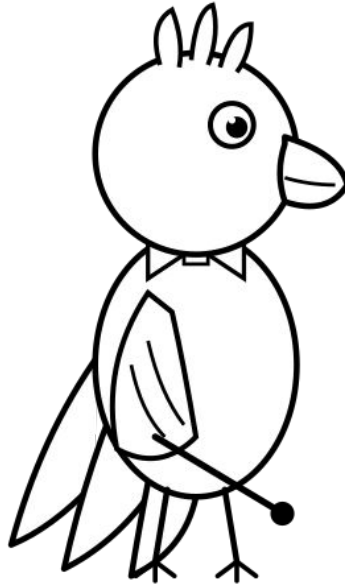

4. Distribute one frame per pair before Lesson 2.

5. Provide a small pad of sticky notes per pair — Grade 1 children write the rule label (AB / ABB / AAB / ABC)...

Coco the Conductor Puppet

(char_coco_puppet)

A printable Coco illustration that the teacher mounts on a popsicle stick to use as the recurring class character throughout all 5 lessons.

PRINT SPECS

Size: letter portrait

Colour: bw

Pages per set: 1

Laminate: yes

USE IN CLASS

Quantity: 1 puppet for the teacher

Lessons: 1, 2, 3, 4, 5

Prep: ~10 min

TEACHER PREP

1. Print 1 page on cardstock if possible (or regular paper + laminate for durability).

2. Cut around the outside of Coco's silhouette including the bottom tab.

3. Glue or tape a popsicle stick or tongue depressor behind the bottom tab so Coco can be held up like a puppet.

4. Optional: laminate before cutting for years of reuse.

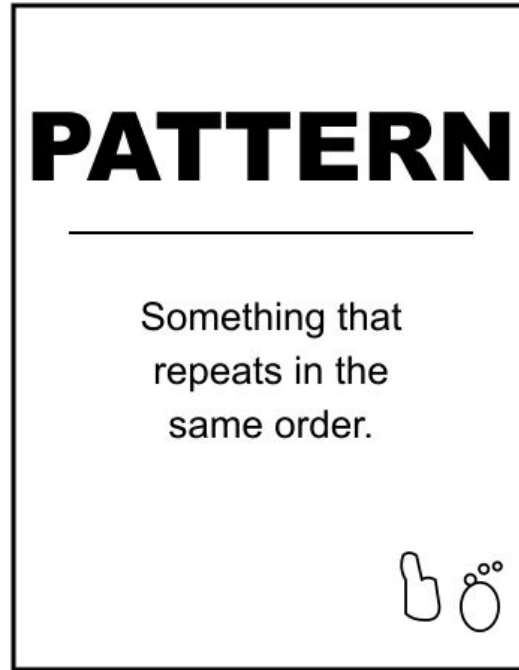

5. Store flat in a folder so the puppet doesn't crease.

...

Anchor Chart Word Cards

(M6_anchor_chart_words)

A printable set of four word cards (PATTERN, CORE, MISSING, EXTEND) with child-voice definitions and small visual cues.

PRINT SPECS

Size: letter portrait
Colour: bw
Pages per set: 1
Laminate: yes

USE IN CLASS

Quantity: 1 set per class
Lessons: 1, 2, 4
Prep: ~10 min

TEACHER PREP

1. Print 1 page (1 set per class is enough — these go on the wall, not in pair bags).
2. Laminate the page for durability before cutting; this set will last for next year's class too.
3. Cut along the cut-lines into 4 individual word cards.
4. On Day 1, after introducing 'pattern', tape the PATTERN card to your anchor chart paper.
5. On Day 2, after introducing 'core' and 'rule', tape the CORE card; hand-print 'RULE' on chart paper beside...

...

Name: _____

Date: _____

Summative Assessment Rubric

Expectation	Level 1 (Beginning)	Level 2 (Developing)	Level 3 (Achieving)	Level 4 (Exceeding)
C1.1 Identify, describe, extend repeating patterns	Names what's next only with prompts.	Predicts most of the time. Creates 2-element with help.	Confidently predicts and creates 2- or 3-element patterns.	Creates 3- or 4-element cores; spots patterns across reps.
C1.2 Translate patterns (objects, sounds, movements, pictures)	Treats different reps as different patterns.	Produces one 2nd rep with help; structure may drift.	Translates rule (AB/ABB/AAB/ABC) into 2 different reps.	Translates into 3+ reps including invented ones.
C1.3 Determine rules (AB/ABB/AAB/ABC); justify; find missing	Cannot consistently name a rule or fill missing.	Names AB with prompts; fills missing at end only.	Names AB/ABB/AAB/ABC; fills missing anywhere; justifies.	Names invented rules; extends both directions independently.
C1.4 Use patterns to describe whole numbers up to 50	Does not yet translate animals to numbers.	Builds 2-element number parade with small numbers, with help.	Builds repeating number parade up to 50; explains relationship.	Uses larger numbers within 50; predicts cells far beyond.

Junior Pattern Conductor Certificate

This certificate is proudly presented to:

For successfully completing the 5-Day Pattern Parade unit, naming pattern rules, translating across representations, and leading a number parade up to 50. A pattern parade certificate. Coco the Conductor congratulates the student.

By completing this unit, this student has demonstrated:

- Spotting and creating repeating patterns and predicting what comes next
 - Naming pattern rules using letters (AB, ABB, AAB, ABC)
 - Showing one rule in many different ways — animals, sounds, bodies, and numbers
 - Finding missing elements anywhere in a parade and justifying predictions using the rule
 - Building a repeating number parade with whole numbers up to 50

Marketplace Listing

A 5-day Ontario Grade 1 unit on Algebra (C1.1–C1.4), framed as a parade led by Coco the Conductor and four Canadian animals.

Price: \$11.99 CAD

Pages: ~38

Classroom time: 230 min

Teacher prep: ~105 min

Top tags: patterns, grade 1, Ontario, Ontario curriculum, math, mathematics, algebra, patterns and relationships

What's included:

- 5 fully-scripted lesson plans (45–50 minutes each, ~230 minutes total of teaching time)
 - 5 student worksheets aligned to each lesson, with name/date fields, child-voice learning goals, and Grade 1 sentence frames for justification
 - 1 mid-unit formative assessment ('The Same Rule Check') administered between Lesson 3 and Lesson 4
 - 1 end-of-unit reflection sheet with 5 prompts for student self-assessment, including a yes/no audit of all four Grade 1 expectations
 - 7 printable teacher manipulatives: parade animal cards, parade strips (laminated for dry-erase number parades), sound-and-movement cards (6 sets — teacher + 5...)
 - 4 class observation trackers: 1 diagnostic (Lesson 1) plus 3 formative (Lessons 2, 3, 4)
 - 1 four-level summative rubric covering all four expectations (C1.1–C1.4) with Grade 1 descriptors
 - 1 summative administration guide tying the worksheet, lesson, and rubric together for the teacher
 - Junior Pattern Conductor certificate (one per child) for the closing ceremony
 - Detailed expanded walkthroughs for Lesson 3 (the keystone — translating a rule across representations) and Lesson 5 (animals to numbers up to 50), including...
 - Differentiation tracks built into every lesson: emerging learners, extending learners, ELL/IEP, and movement-first learners
